INTRODUCTION

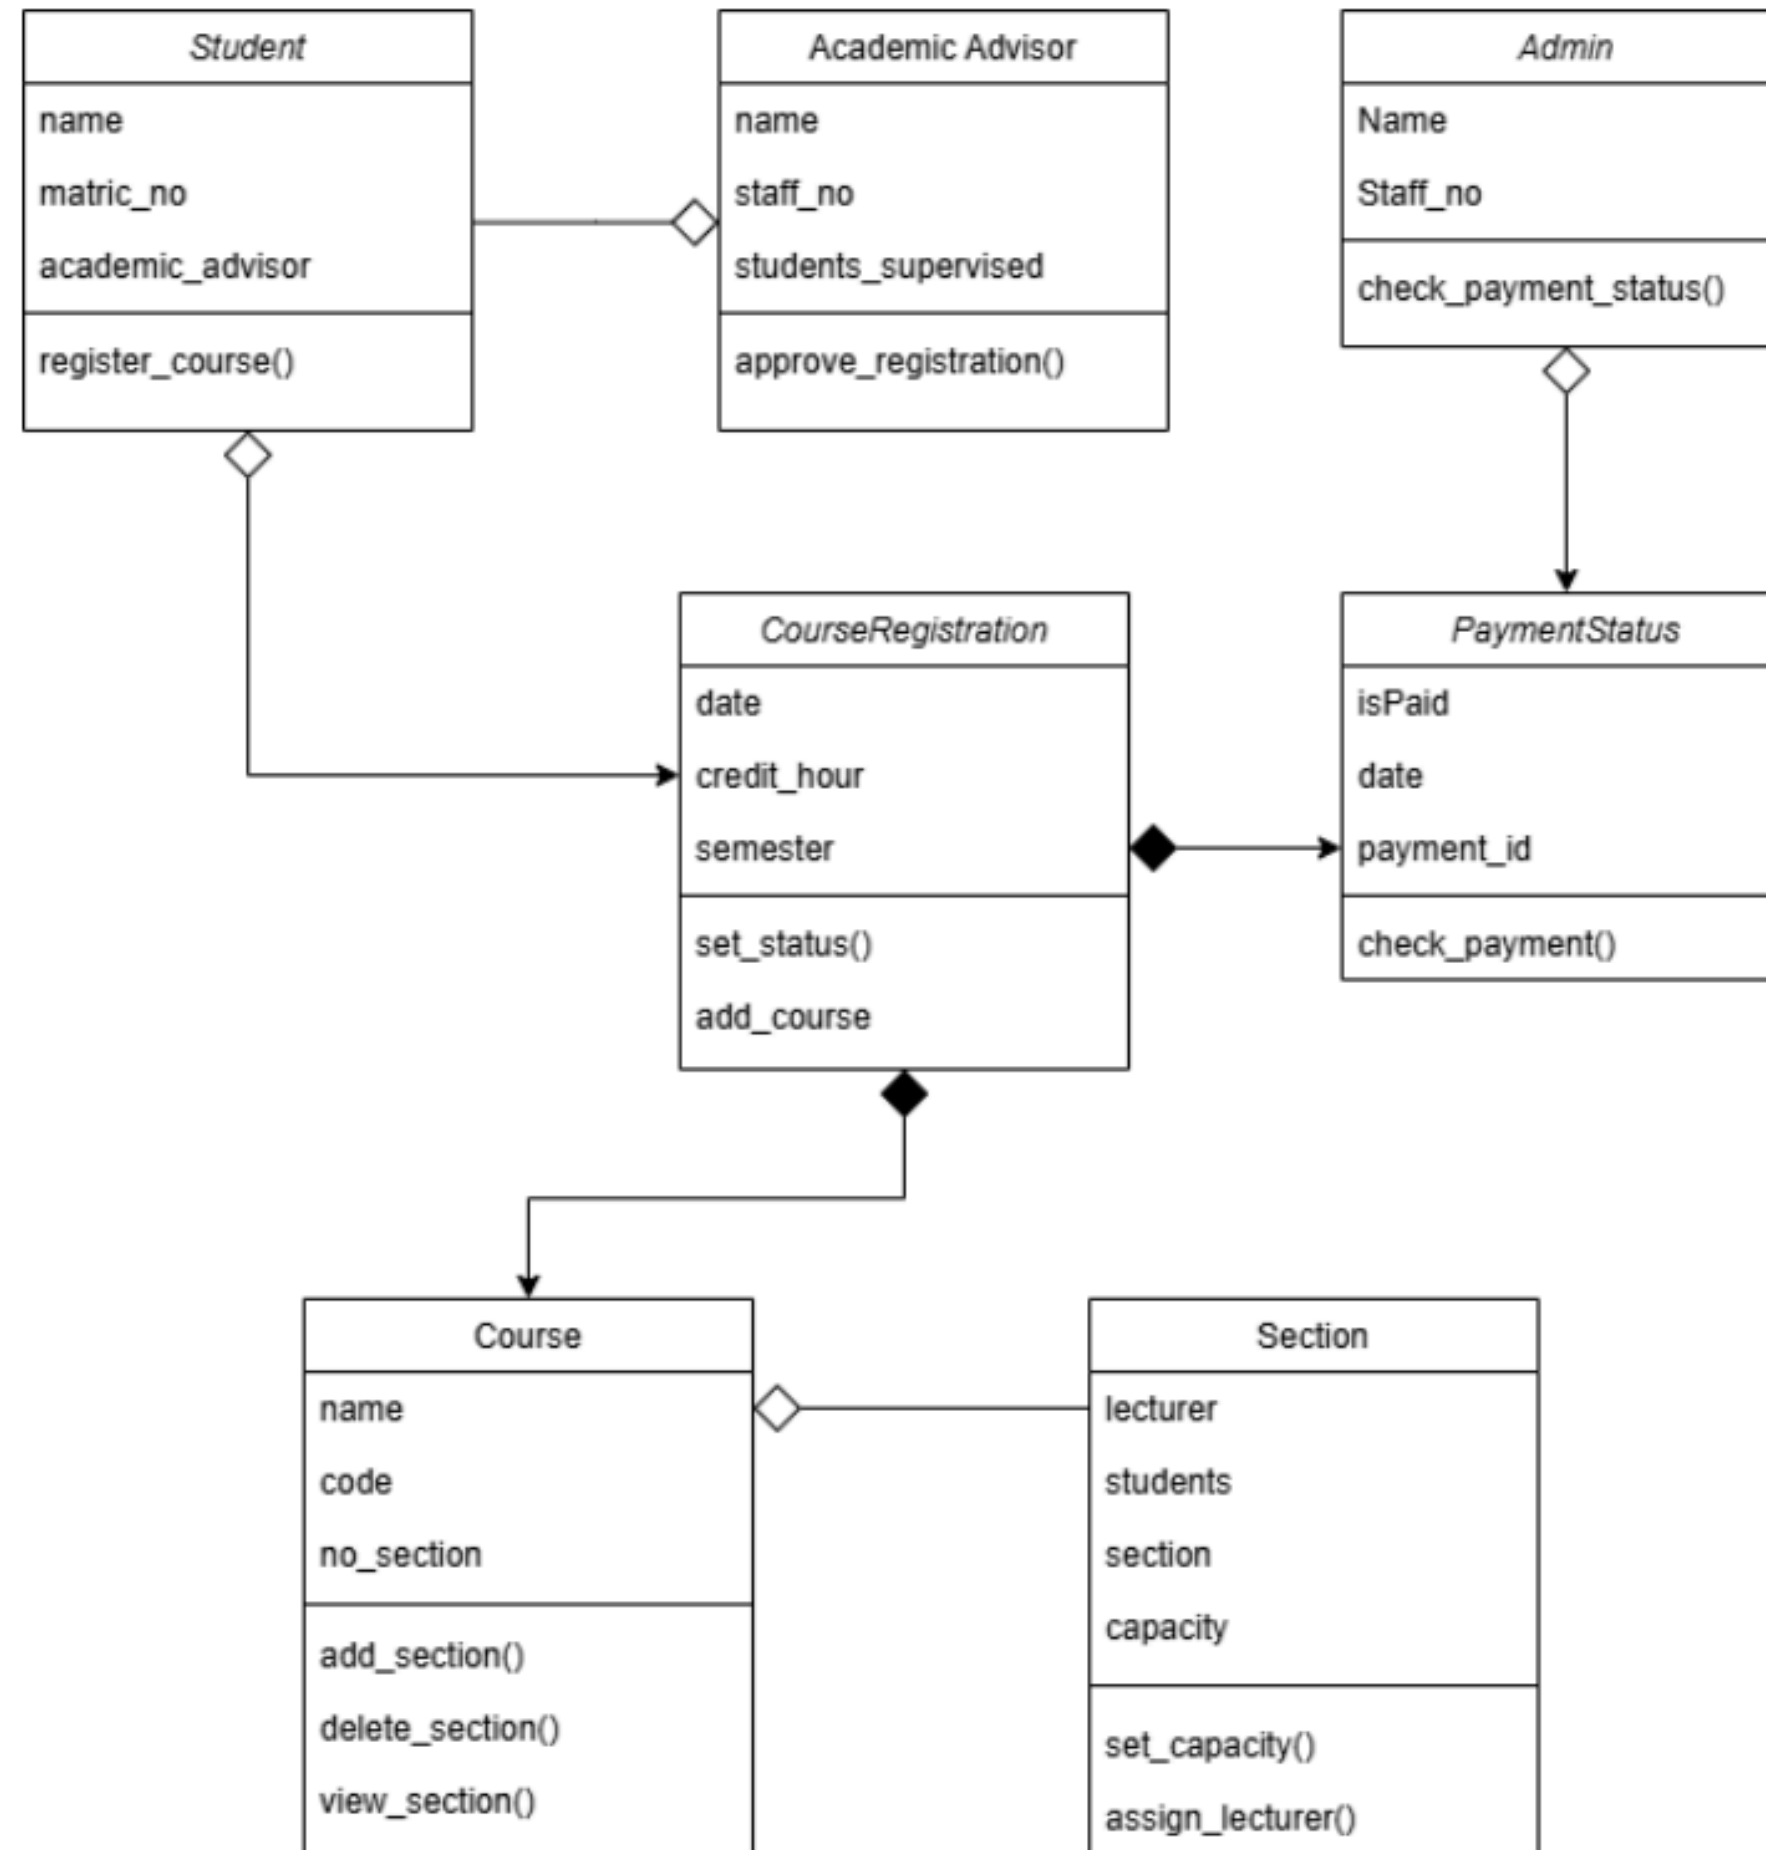

To identify and visualize the entities, relationships
and attributes in a UTM course registration
system.

Use Case Diagram

Class Diagram

Use Case Description 1

1. Check Payment Status

Use Case Name	Check Payment Status	
Scenario	Admin verifies the payment status of students' registration fees via the UTM Student Registration System.	
Triggering Event	Review of students' payment details upon request or during the registration process.	
Brief Description	Admin checks whether the payment has been successfully completed and updated in the system to allow student registration to proceed.	
Actors	Admin	
Related Use Case	Student registration approval (could be connected to confirming eligibility once payment is made)	
Precondition	1. Students must have initiated payment 2. Admin must be logged into the system and have access to payment records	
Flow of Activities	Admin	System
	1. Select "Check Payment Status" 2. Enter the student ID 3. Verify the payment status	1.1 Retrieve the student's payment information 2.1 Display payment status (paid or unpaid) 2.2 Display any error messages if necessary
Exception Condition	1. If the payment record is missing, the system displays an error message. 2. If the payment status is pending or incomplete, the system prompts the Admin to take further action or notify the student.	

Use Case Description 2

2. View course		
Use Case Name	View Course	
Scenario	Admin views the list of courses available in the system through the Course Registration System.	
Triggering Event	Admin needs to review course details for verification or administrative purposes.	
Brief Description	Admin accesses the course list in the system, which displays available courses with relevant details such as course name, code, and available section.	
Actors	Student	
Related Use Case	-	
Precondition	1. Admin must be logged into the system and have the appropriate permissions to view course information.	
Flow of Activities	Admin	System
	1. Select "View Course".	1.1 Retrieve the list of available courses from the system database. 1.2 Display the course information such as course name, code, and available section.
Exception Condition	3. If there are no available course section in the system, display a message indicating that no section are currently available. 4. If the course information cannot be retrieved due to a system error, display an error message and suggest retrying later.	

Use Case Description 3

3. Choose course

Use Case Name	Choose Course	
Scenario	Students register courses for next semester via the Course Registration System.	
Triggering Event	Make course registration at the Course Registration System website.	
Brief Description	Students enter course code and select course section.	
Actors	Student	
Related Use Case	Include: Choose section	
Precondition	1. Students should log in to the Course Registration System using their student account. 2. Students should pay the current semester debts before choosing a course.	
Flow of Activities	Actors	System
	1. Students enter course code. 2. Students choose course section.	1.1 Display sections available for the course. 2.1 Add to student's course registration list. 2.2 Display a successful message
Exception Condition	1. If course code is not found, display an error message. 2. If the capacity of the selected section is full, display a notify message.	

Use Case Description 4

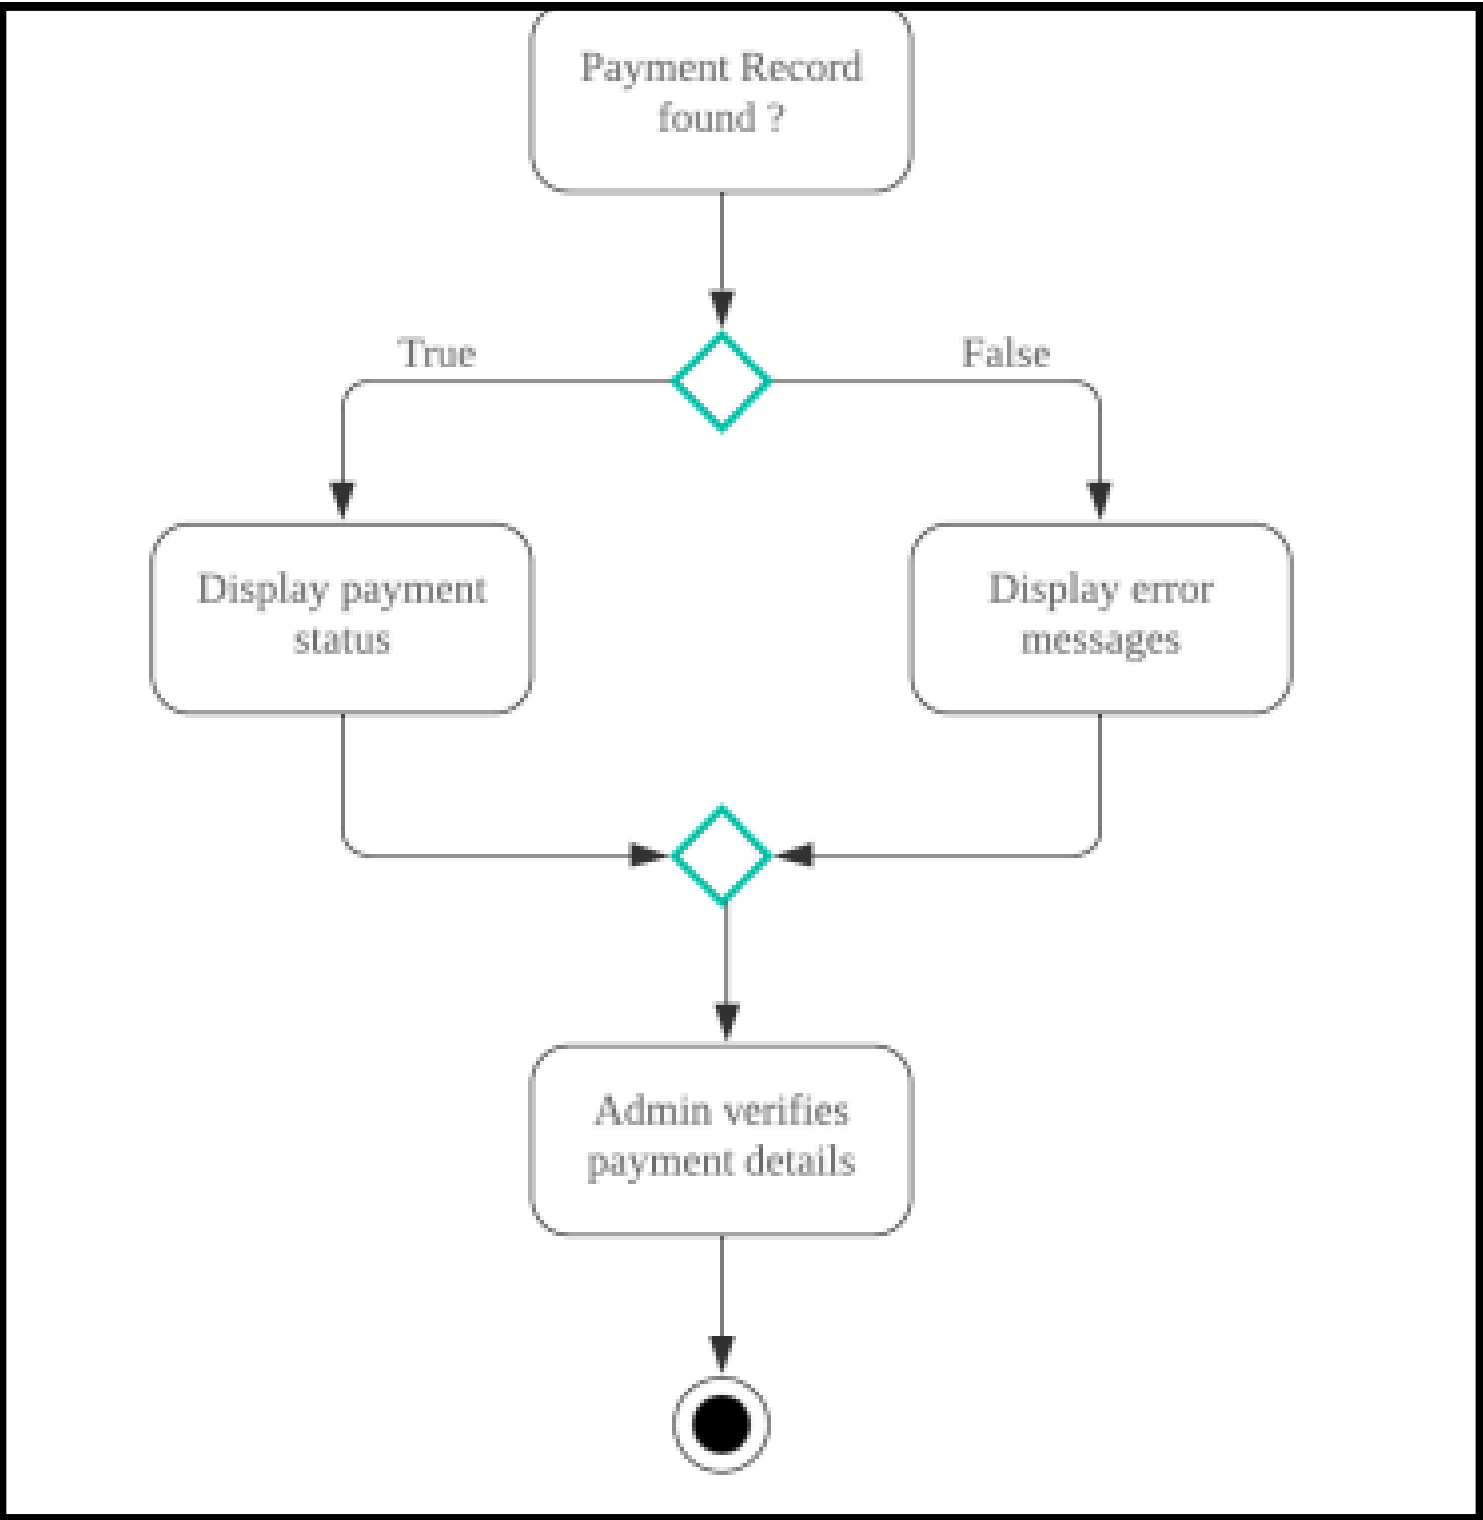

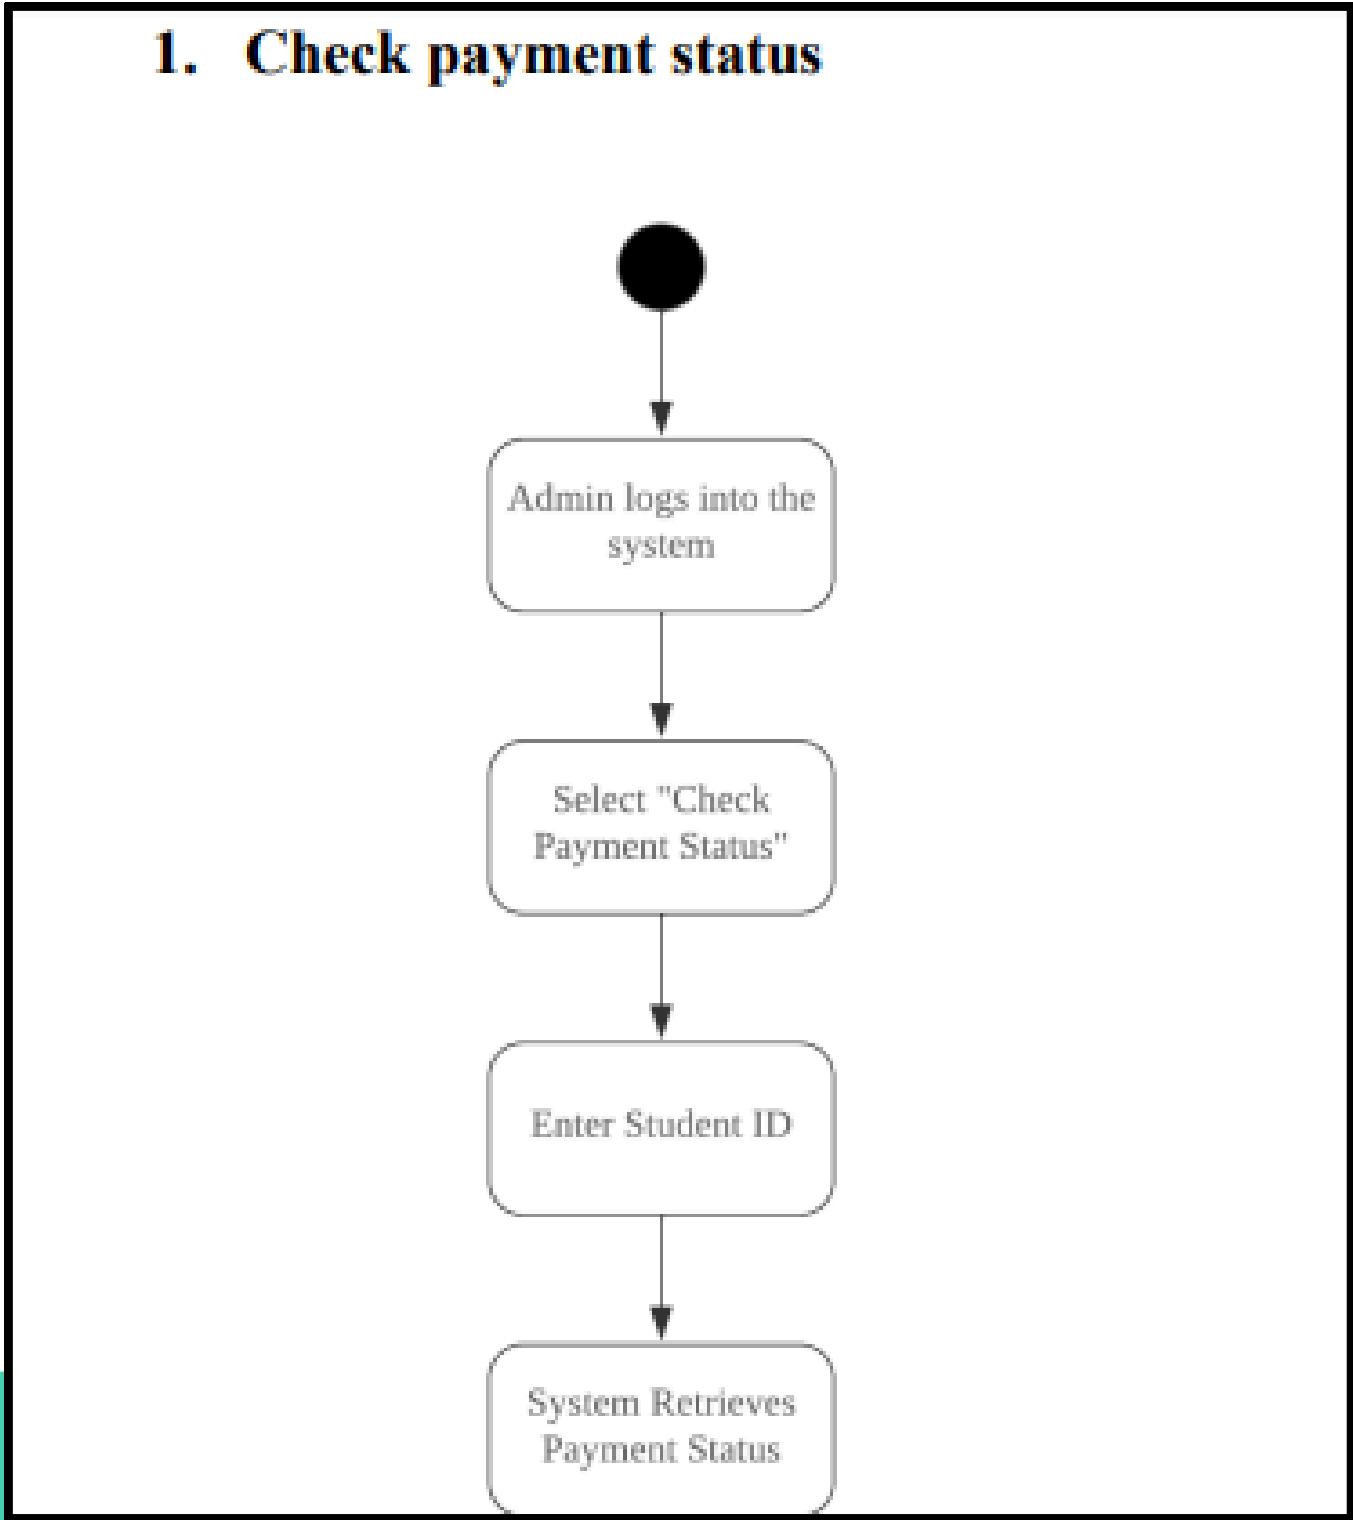

4. Submit Course Registration	
Use Case Name	Submit Course Registration
ID	UC4
Scenario	Students submit course registration for next semester via the Course Registration System.
Triggering Event	Done choosing course to take for the next semester.
Brief Description	Students click the submit button after completed choosing their required courses.
Actors	Student
Related Use Case	-
Precondition	1. Students must be logged into the system 2. Students complete choose all required course
Flow of Activities	1. Students select “Course Registration” 1.1. The system displays a list of all chosen courses with total credits. 2. Students click “Submit” button 3. If credit is below 12 3.1. The system displays a message to add more courses. 4. Else if credit above 18 4.1. The system displays a message to remove courses. 5. Else 5.1. The system displays a message of confirmation. 6. Students confirm by clicking “OK”.

Use Case Description 5

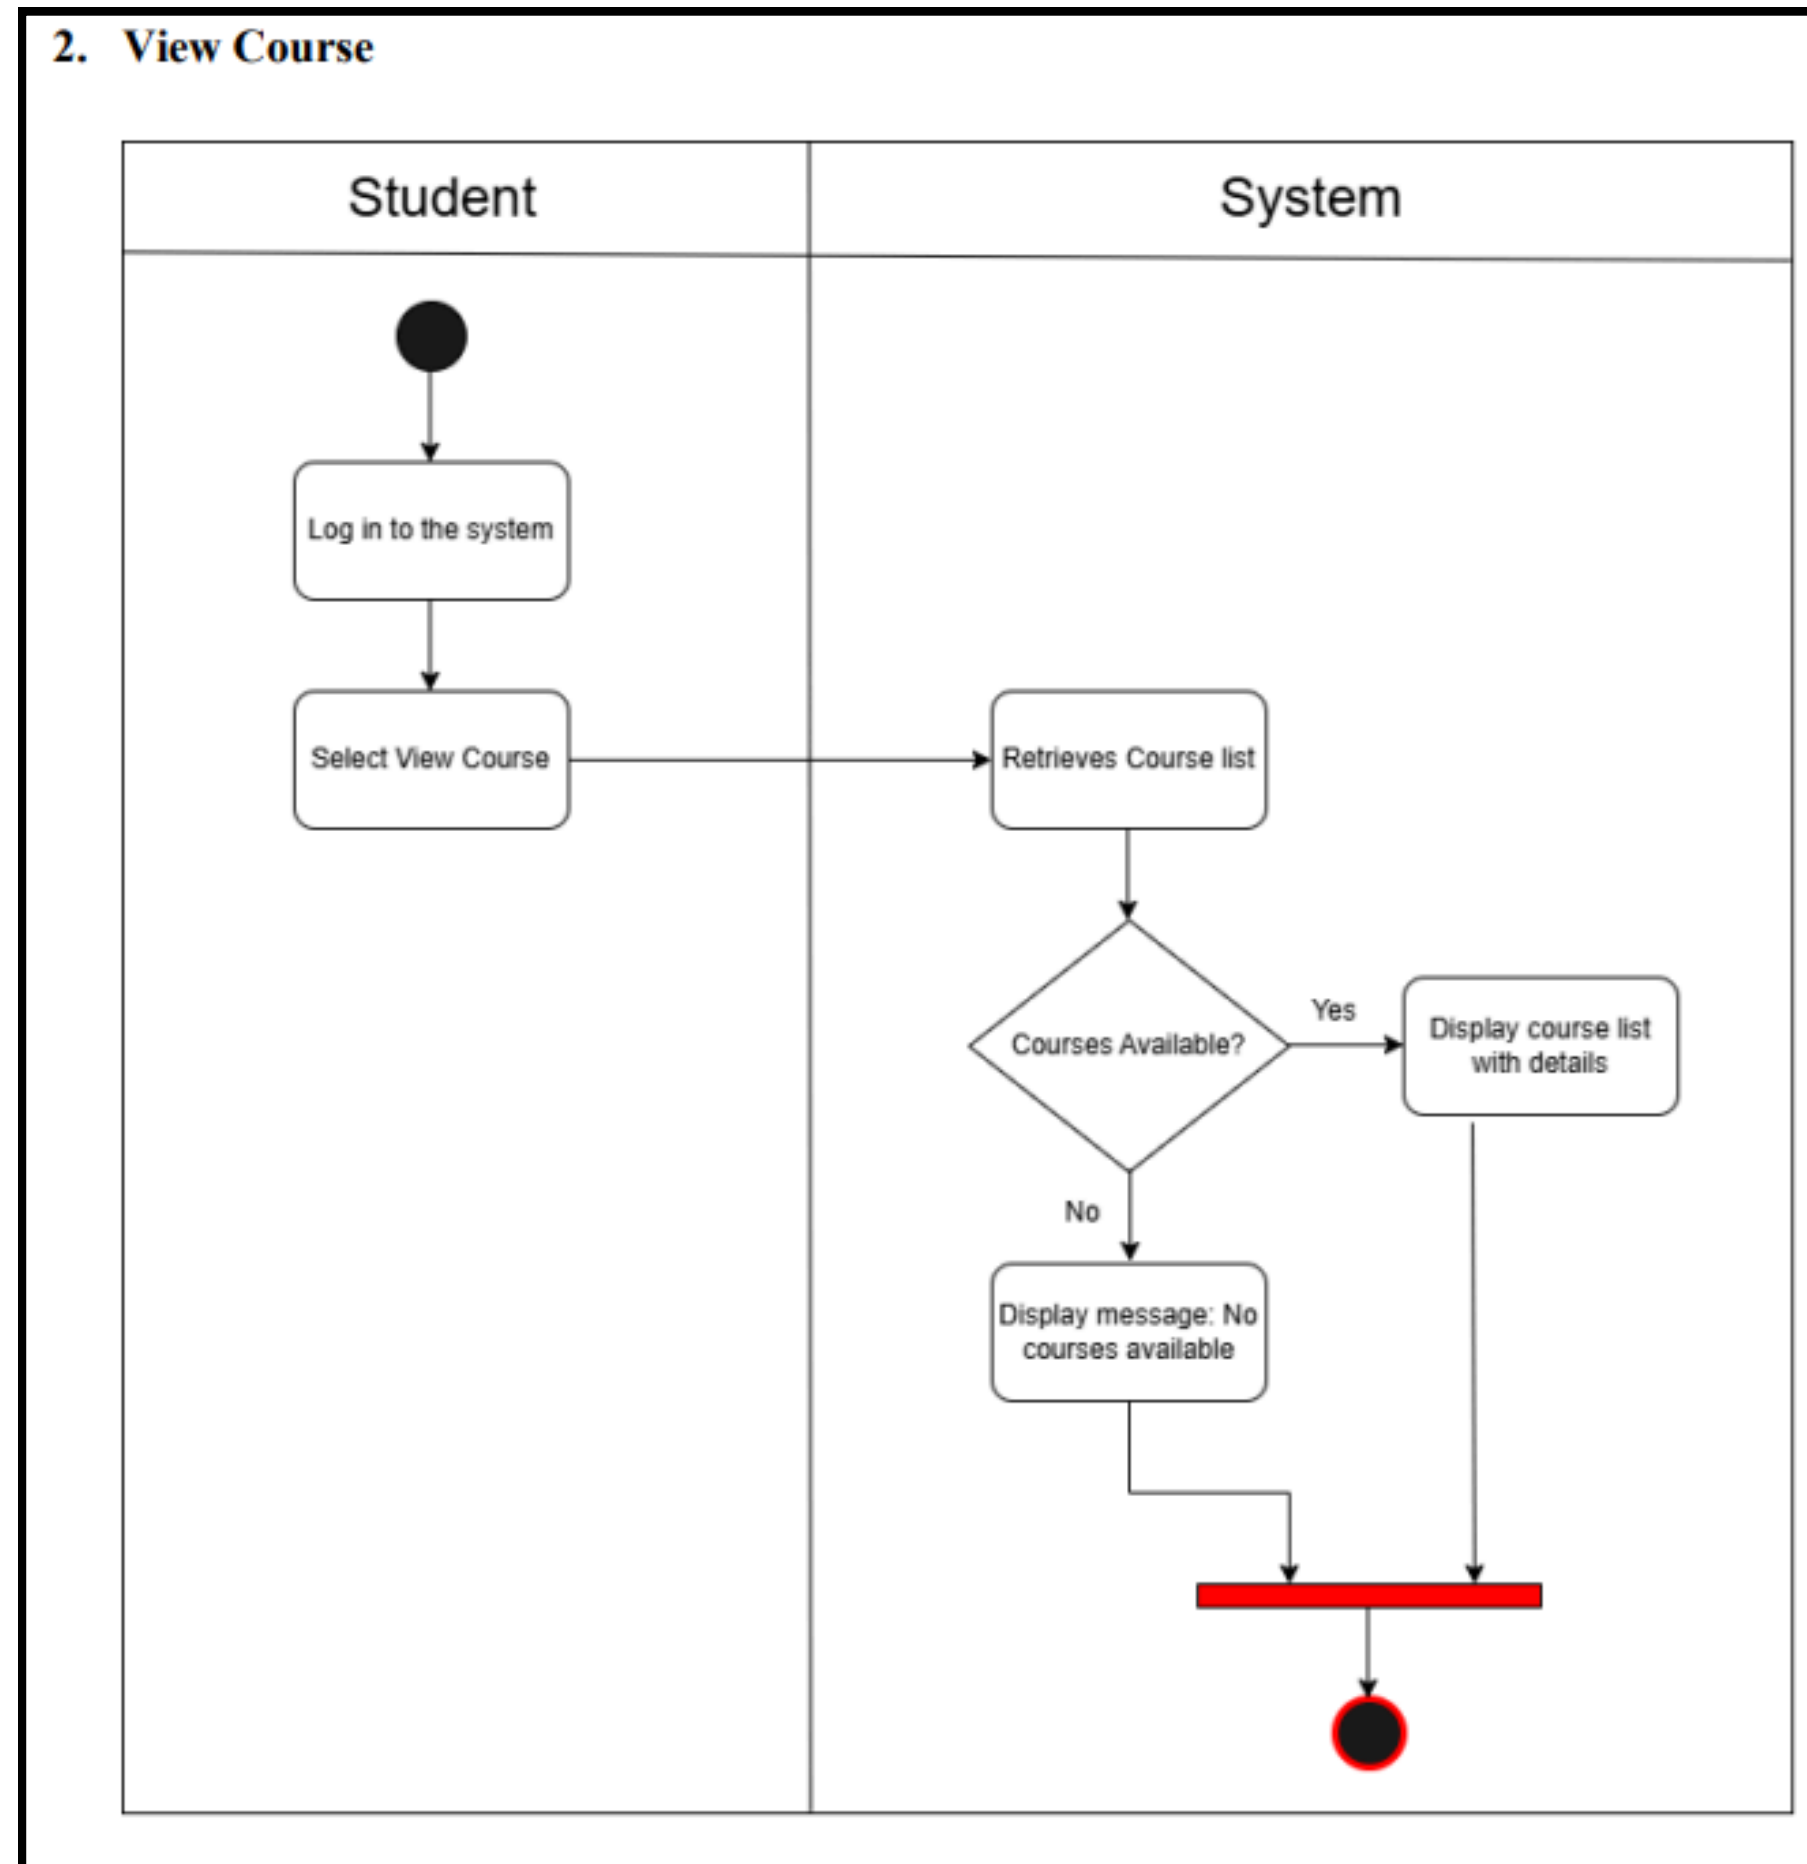

5. Approve student course registration		
Use Case Name	Approve Registration	
Scenario	Academic advisor approves students' course registration for next semester via the Course Registration System.	
Triggering Event	Review the students' course registration info at the Course Registration System website.	
Brief Description	Academic advisor reads and approves the students' course registration if valid.	
Actors	Academic advisor	
Related Use Case	-	
Precondition	1. Students should have already submitted their course registration info within the due date.	
Flow of Activities	Academic advisor	System
	1. Receive the course registration info via Course Registration System 2. Read the submissions 3. Approve the submission	1. Display the students' course registration info 2. If approved 2.1 The system will automatically update the students' course info in UTMSmart 3. If not approved 3.1 The system will display a course registration denial message.
Exception Condition	1. If students' registered course is more than 18 credit hours, academic advisor will deny the registration. 2. If a student has not completed the prerequisite courses, academic advisor will deny the registration. 3. If a student fails to submit within the due date, submission will not be possible and they need to seek academic advisor's assistance.

Sequence Diagram 5

The image features a light gray background with the text "THANK YOU" centered in a bold, blue, sans-serif font. The corners are decorated with abstract geometric patterns. The top-left corner has a series of parallel diagonal lines in a light blue-gray color. The top-right corner features a cluster of overlapping semi-circles in yellow, red, teal, and dark blue. The bottom-left corner has a similar cluster of overlapping semi-circles in red, teal, and dark blue. The bottom-right corner features a large, light blue-gray arc with several parallel diagonal lines extending from its base.

THANK YOU
